

Sangeeta Das, Senior Member of Technical Staff

Bangalore, Bharat, 8800980544, sangeeta.das09@ymail.com

PROFILE

Seasoned Java Developer with 8+ years of experience in web and enterprise application development, specializing in Java J2EE technologies and Cloud-Based Applications. Proven expertise in delivering scalable, high-quality solutions with strong analytical and problem-solving skills. Currently working with Oracle Visual Builder. Oracle Cloud Infrastructure Certified, committed to driving innovation and excellence in software solutions.

EMPLOYMENT HISTORY

Jan 2021 — Present

Senior Member of Technical Staff, Oracle India

Bangalore

Product: JDeveloper

Role: Java Developer

- **IDE Feature Development:** Designed, coded, and tested new features and enhancements to improve user experience and meet product requirements.
- **Java Language Support:** Implemented and maintained robust support for Java language features such as syntax highlighting, code completion, refactoring tools, and Java version upgrades (JDK 11, JDK 17).
- **Bug Fixing and Stability:** Identified and resolved software defects, ensuring product stability and reliability through thorough investigation and testing.
- **Performance Optimization:** Improved IDE performance by identifying bottlenecks, enhancing compilation speed, and ensuring responsive execution.
- **Version Control Integration:** Seamlessly integrated tools like Git and Maven into the IDE, streamlining developers' workflows for efficient code management.
- **Security Enhancements:** Ensured the IDE adheres to security best practices, safeguarding user code and data from vulnerabilities.
- **Code Reviews and Mentorship:** Conducted code reviews to uphold code quality, foster knowledge sharing, and mentor junior team members.
- **Module Ownership:** Took full ownership of modules and internal standalone Java applications, driving their development and maintenance end-to-end.

Product: Visual Builder

Role: Java/JavaScript/TypeScript Developer

- **Cloud-Based IDE Development:** Contributed to the development of Visual Builder, a cloud-based IDE, enabling seamless creation of web and mobile applications.
- **Frontend Development:** Designed and developed interactive user interfaces using ReactJS, focusing on reusable components to enhance maintainability and user experience.
- **Backend Integration:** Developed backend services and APIs in Java to ensure efficient data flow and integration with cloud-based features.
- **Feature Implementation:** Focused on delivering cloud-specific features, emphasizing scalability and responsiveness tailored to modern development needs.

Dec 2019 — Jul 2020

Software Development Analyst, Accenture

Gurgaon

- Contributed to multiple internal and client-facing projects, focusing on [specific skills, e.g., performance optimization, bug fixing, or tool evaluation].
- Enhanced technical expertise by learning to align with upcoming project requirements.
- Collaborated with cross-functional teams to deliver proof-of-concept (POC) projects for potential client engagements.

Mar 2017 — Dec 2019

Engineer, Wipro Limited

Delhi

Project Name: eMMS

- Strong client interaction, capturing client requirement & analysis.
- Involved in the development/Customization of (IBM Maximo) Java web based application as per the client requirements as well as Customization in the IBMSSCD, IBM CDM and IBM CDC tool.
